A Great Steel Plant Which Has Been in Existence Only a Dozen Years and Which Has Furnished a Fine Example of Ameriean Possibilities to All the World-

Enormous Growth of Iron Experts. BALTIMORE, Jan. 20.-The steel rail traffic the works of the Maryland Steel Company at Sparrow's Point has been a banner in dustry to Baltimore. Although this plant has been in existence only a dozen years, it has succeeded through excellent management in coming one of the foremost corporations of its kind in the world. Twelve years ago the Maryland Steel Company, then known as the Pennsylvania Steel Company, was first started, and was a branch of the Pennsylvania Company of Philadelphia, Three years later it was made a separate organization and its name was changed to its present one. It was in that year that the first foreign or-

der for steel rails that ever left Maryland was shipped from Sparrow's Point, This order was a small one consigned to Cuba. To-day they are sending Maryland-made raffs to almost every part of the globe. As each year rolled past their business increased, and in 1897 30,000 tons of rails, bars, plates, fittings, do, were shipped from Sparrow's Point. In 1898 more than three times this amount left Sparrow's Point, and 91,438 tons of rails were shipped to Ireland, India, Africa, Australia, Jamaica, Nova Scotia, Mexico, Barbados, Cuba, Bussia, Siberia, and other foreign lands. These rails have been sold in direct competition with the English-made ralls, and closely following the purchase of Maryland steel rails for an Irish railway comes an order o the Maryland company from the Caledonian Railway Company of Scotland. The American rail has therefore entered Great Britain Not only are the rails made here said to be superior in quality, but they are also sold much cheaper than those made in England. The Marvland-made rails can be sold for \$18 a ton, while the same quality of English rails

Last year this company furnished the Russian Government with 40,000 tons of rails and has another order for nearly the same amount at present. Ireland has also sent in a new order for 25,000 tons, part of which has already been delivered. Last year Austria received 30,000 tons and has already this year filed a duplicate order. A 5,000-ton order has also been received from India this year, and half that quantity has been shipped.

It is believed that the export of rails and fit-tings from Baltimore this year will exceed 300,000 tons. The trade is growing rapidly and large orders are coming in daily from sountries in all parts of the world. The demand for iron ore and the sudden termination of the American-Spanish war have revived the Cuban ore trade, and a fleet of British "tramp" steamers lands thousands of tons of Cuban ore at Sparrow's Point weekly.

The plant of the Maryland Steel Company is very large, covering more than 1,000 acres of lass and employing 2,000 men, which force will be increased as the business demands it. It is expected that within the next few months additional 1,000 men will be taken on, in order to fill contracts.

The Maryland Steel Company's plant is situated at Sparrow's Point, which is a point of land that juts far out into the Patansoo River. Here the company has its own wharves, where it receives all of its iron and steel ore and from which it ships all of the products which it manufactures. It has immense blast furnaces and its output averages from to 1,000 tons of rails per day. In 1898 the company entered upon a new venture, that of shipbuilding. At the present time it is building two torpedo-boat destroyers for the Government, a large sea-going tug for the Baker-Whitely Coal Company and a large steamship for the New York and New Haven Steamboat

District Attorney Gardiner said yesterday that he had refused to accept a bail bond offered by Joseph N. Campbell, the Harlem buildes, who wanted to become bondsman for Mrs. Fayne Moore, the alleged badger woman. The District Attorney said he would not accept the bond unless compelled to do so by the Supreme Court. He added that he was of the opinion that Mrs. Moore intended to leave the city in case she was released from the Tombs.

Builder Campbell said that he would be willing to furnish a bond in any sum fixed by the court. He said he had known Mrs. Moore's mether in Atlanta, Ga. and remembered Fayne Moore as a sensolgiri.

BIG PULL FOR QUAY.

His Managers to Try to Make Another "Supreme Effort" to Elect Him.

HARRISBURG, Pa., Jan. 20.-It has been given out that the Quay managers will make a su preme effort on next Tuesday to break the deadlock in the Legislature and elect Senator Quay. They appear to be confident of their ability to do this, and while they admit that the additional votes must come from the Democrats, they are not giving away their The minority representatives from York and Schuylkill are most frequently mentioned as those likely to aid Sena-

tor Quay. The anti-Quay leaders point to the fact that this talk emanates from the Quay camp to sustain their contention that the intimations of disloyalty on the part of the Democrats to-ward their candidate, George A. Jenks, do not come from the opponents of Senator Quay. Both sides are coddling the Democrats and the Democrats are coddling one another. The Democratic honor is at stake, say the leaders of the minority, and they will do their utmost to keep any cheap statesman from failing by the wayside.

The story of those three men who once fell victims of bribery here during a Senatorial fight is being rehearsed with all the details, so that men who might like to go wrong, could they be sure of escabing detection, are afraid to leave the ranks of Jenka. He will stand as long as there is any possible hope of defeating Quay by so doing. Col. Guffy, the leader of the Democratic party in the State, will be here Monday to ald in holding the lines firm. Senator Quay is said to have told a friend vester-day that he could not be elected, but that there would be no change for the present. Senator Mages of Pittsburg told a friend to-day that he did not want the office at this time. The large number of pairs announced to-day means that there will be no material change in the situation before Monday. The vote to-day was; M. S. Quay, 83; George A. Jenks, 69; John Dalzell, 14; C. W. Stons, S. Charles Tubbe, 4; John Stewart, 9; C. E. Smith, 1; George F. Huff, 5; G. A. Grow, 1; Alvin Markie, 1; J. F. Downing, 1; E. A. Irving, 3; Charles E. Bice, 1. HELENA, Mon., Jan. 20.-To-day's ballot in the Montana Legislature for United States Senator resulted as follows: Conrad, 32; Clark, 29; Malone (Rep.), 15. The other votes were scattering. This shows a gain of one for Clark. Two Clark men were absent through sickness It seems certain now that Clark will become the leading Democratic candidate, but that ar election will result is extremely doubtful. All depends upon the action of the fifteen Republicans, and it is considered unlikely that they will vote for a Democrat. To-day's joint session was enlivened by two

To-day's joint session was enlivened by two bitter anti-Clark speeches. Representative Keny of Great Falls denounced Clark as a Mugwump, and said he tried to disrupt the Democratic party in Montana at the recent election by placing an opposition legislative ticket in the field. Senator Meyer of Hamilton then rose to a question of personal privilege. He said that his action in accepting \$10,000 through Whiteside to vote for Clark for the purpose of exposing bribery had caused him to be branded throughout the State as a spy, traitor and demagogue. He denied that he was any of these. He reiterated the evidence he gave before the legislative committee, and further said that he had hardly been elected a Senator leaf fall before he was approached by Clark's agents, who solicited his vote for the Senatorship and promised him in return a very remunerative office, which he had indignantly spurned.

SEVENTH BALLOT IN WASHINGTON.

The Two Leading Candidates Tied, and No Choice in Sight Yet.

SEATTLE, Wash., Jan. 20. - There were three ballots in the Washington Legislature to-day for United States Senator, making seven during the week. Tae last ballot stood: Wilson, 27; Foster, 27; Humes, 29; Lewis, 24; Ankeny, 7; with Allen out of the race. No caucus was held, and it is uncertain whether one will be held. Friends of Wilson express more confidence than ever, and the statement was made this evening that eight of the Pierce county delegation and seven from King are ready to go over to him. Both houses adjourned until to-morrow under the supposition that the Constitution requires with surrespectively day until stitution requires a vote every secular day until a Senator is elected.

DIFORCED FROM MILTON BARLOW Wife of the Former Well-Known Mizstrel

Secures an Absolute Decree.

BRIDGEPORT, Conn., Jan. 20.-Lillie Hall Barlow, the wife of Milton G. Barlow, the onetime well-known minstrel, secured an absolute divorce from her husband in the Superior Court in this city to-day. The grounds alleged in the complaint were "intolerable cru-city and habitual intemperance." No defeace was interposed by Mr. Barlow. The evi-dence disclosed that the parties were married at Jersey City on the night of March 14, 1888, when the great blizzard of that year was rag-

Mrs. Barlow said that her husband had developed such a fondness for drink of late years that it interfered with his business, and on one or two occasions he had broken her nose and beaten her black and blue. Other witnesses corroborated the testimony and Judge Elmer granted the decree. No allmony was asked for, but it is understood that the home of the Barlows at Long Hill, seven miles north of this city, is given to Mrs. Barlow is an actress, her maiden name being Lillian Hall.

ONE EXCISE CONVICTION.

Only One in Fifty-seven Cases, and the De fendant Admitted the Truth.

In the past ten days juries in the General Sessions have rendered verdicts of acquittal in fifty-six excise cases out of fifty-seven tried. The one conviction was obtained yesterda before Judge Blanchard and a jury. The man convicted was Benjamin Heath, a waiter, employed in Germania Hall on the Bowery. Heath was convicted because he admitted on the witness stand that he had given a glass of whiskey to a policeman after the policeman had stated that he was ill. Judge Blanchard suspended sentence in the case, because, he said, he was glad to meet a defendant who would tell a truthful story in an excise case. Two policemen testified yesterday before the Grand Jury that they had found fifteen men drinking in Louis Laccarpolle's saidon at 228 East Fifty-fourth street in prohibited hours. the property and franchises of the Power Company, subject to a first mortgage securing \$15,000,000 bonds, of which \$11,500,000 are now outstanding.

Spencer Trask is the President of the Edison Company. It was stated at the office of his firm yesterday that the sale would unquestionably go through. It is understood that R. R. Bowker, First Vice-President of the Edison Company, was opposed to the negotiations for the transfer and has sent in his resignation. Mr. Bowker will also resign as Prasident of the Manhattan Electric Light Company, which is controlled by the Edison Electric Illuminating Company.

Mr. Bowker will also resign as President of the Manhattan Electric Light Company, which is controlled by the Edison Electric Illuminating Company.

The Edison Company is the largest of the local electric light companies, and with its purchase Mr. Whitney and his friends make a big step toward obtaining complete control of the field. Those interested with Mr. Whitney in the New York Gas and Electric Light, Heat and Power Company include P. A. B. Widener, W. L. Elkins. Thomas Dolan. Thomas F. Rvan. Anthony N. Brady, and Roswell P. Flower. The control of the Mount Morris Electric Light Company was obtained last December. About the same time the subways controlled by the Empire Subway Company were added to the big light, heat, and power combination. Negotiations have been going on for the acquirement of the Westinghouse electric light business and the Block Electric Light and Power Company. It was reported yesterday that the saie of the Westinghouse Company had been practically completed, but this was not confirmed. The Block company is a comparatively small concern, in which William F. Sheehan, Col. George B. If Harvey and George W. Young are interested. The outstanding capital stock of the Edison Electric Illuminating Company is \$2,200.000. There are also outstanding \$5,312.000 in first mortgage bonds and \$2,188,000 in first consolidated mortgage bonds.

According to the admitted plans of the interests in the new company, it is proposed that the company shall use the surrous electricity from the new power plant of the Metropolitan Street Railway Company. The chief stock-holders of the company control the railway company, whose charter would not have nermitted it to go into the electric light, heat and power business. The new company is preparing to do this by buying up the franchises of the existing lighting and heating companies.

FOUGHT IN A LOCOMOTIVE,

An Engineer Overcomes an Insane Fireman and Averts a Collision.

LOUISVILLE, Ky., Jan. 20,-Engineer Barney Keegan of the Illinois Central Railway had the most thrilling experience of his life last night, and only his dogged determination saved the life of Walter Cole, the fireman, and perhaps the lives of the passengers. For twenty miles. as the engine was speeding along the tracks at the rate of thirty miles an hour, Keegan engaged in a life and death struggle with Cole

who had become violently insane. Keegan stopped his train, the fast mail. which is due in this city at 9:15 P. M., at Cecil, Ky., about forty miles south of this city to take water. He noticed that Cole was acting strangely, and asked him what was the matter Cole did not reply, but began beating his head violently. Keegan had previously heard him complain of a headache. He started his train toward this city, and when he had gone about a mile he heard a piercing scream and saw Cole climbing out of the cab window. The fireman would have made the leap in another instant, but Keegan grappled with him and pulled him back into the cab. Then, after a struggle, the fireman sprang on the engineer, and they were locked in a tight embrace.

embrace.

Keegan remembered that he had orders to take the siding at West Point, twenty miles further on to allow the New Orleans limited from Louisville to pass. The struggle had lasted several minutes. Cole showed no signs of tiring and Keegan was beginning to grow weak.

weak.
The train was then nearing West Point. Just before he reached the stop Keegan made a big effort and threw Cole away from him. He grabbed the throttle and shut off the steam and the engine came to a stop at the station. Cole had renewed the struggle, but help came at once and the fireman was overpowered.

WOMAN'S SENTIMENTS.

They Are Little Understood by Men, but They Cause Her Untold Happiness or Misery.

The girl of to-day is the mother of future generations. Humanity is absolutely dependent for its continuance and preservation on the knowledge and stamina and health of women. Woman's lot and her relations to the world are such as to deserve a great deal more attention and consideration from science than she has yet

The American race of women in particular has questions to settle that are much more important than the extension of the suffrage to women or the enactment of a national divorce law.

Why is it that there are so many feeble and sickly women all over the land? Why is it that not an average of over one child is born to American women? Why is it that hundreds of thousands of American men will not

Have you ever thought of these things? It is because disease is striking at the very root of

the American race. It is because most diseases can trace their cause to one source, viz., troubles of the kidneys and adjacent organs. The kidneys are the great organs of the body, but

this is little realized or understood. A healthy, happy woman with good complexion, good appetite and hopeful spirits never has diseased kidneys. The same is true of men.

But kidney disease is so deceitful, so treacherous, so

The fuse was lighted when the police discovered it, and it is probable that serious damage would have resulted had the omb exploded. There is no clue to the per-

that the difference between a man and a beast was that a man showed self-control, and that Sholl had no self-control that he had sworn on the witness stand without regard to the truth and that he would swear to anything to gain his ends.

Affidavits by F. H. Post and L. D. Byer, who were jurners in the trial, were also read, stating that they had noticed the offensive and injurious terms applied to Sholl by Bullowa, which left a very strong impression upon them that Sholl had been ill-used.

Mr. Dittenhoefer contended that it was not contempt within the jurisdiction of the court to bump a cross-examiner's head against the wall of the corridor after the trial had ended.

Max J. Kohler, counsel for Bullowa, opposed this contention and was sustained by Judge Brown. Such notice should be taken of the assault, Judge Brown said, that, there would be no repetition, and the fact should be established that no attorney was liable to personal violence for his utterances in court.

Sholl has until Monday to produce other affidavits in mitigation of sentence.

DUEL OF THE POETS. Lawyer Stephen C. Baldwin Draws a Poem

on the Bard of Brooklyn Borough. Lawyer Mirabeau L. Towns appeared yester-

iay in Part IV, of the Supreme Court in Brooklyn for Mary Harkins, 14 years old, against the Nassau Electric Bailroad Company to recover \$15,000 damages for injuries received on Aug. 14 while getting off a trolley car on Park aveue near Hall street. Her ankle was sprained. Mr. Towns had a poem concealed about him to spring on the unsuspecting jury; but he didn't know that there was another poem hard by in

know that there was another poem hard by in the inside pocket of Stephen C. Baldwin, counsel for the trolley company, who had the first say to the jury.

The testimony of some of the witnesses for the plaintiff was contradictory. Frank McCann, a boy who had been seventeen months in the House of Refuge, and three boys named Moylan, Connor and McLain said they were playing craps on the sidewalk at the time of the accident. Connor said that when the plaintiff fell off the car he remarked:

"Here comes Harkins the Tough."

It was shown by the testimony that the plaintiff had frequented Wallabout Market and that her father had been told if he did not keep her out of the market a complaint would be made to the Children's Society. After rehearsing the testimony Mr. Baldwin produced his poem, which ran in part thus.

And now, kind friends, I yield the floor to one

And now, kind friends, I yield the floor to one
Who'll likely irr to undo all I've done.
The testimony need not block the way:
Outside the evidence he'll have most to say.
But if you're fond of verse, its worth the time.
He cannot talk to juries, save in rhyme.
See, there he sits, implicable as Jove!
Adame to argue Mamie's alling from a shove,
He'll crown her Virgin Queen of Wallabout,
Her many virtues we'll all hear about.
And interesting it will be, perhaps,
To hear his version of that game of craps,
And how that naughty bud of Teale's court, F. McCann.

Within the House of Refuge bloomed a holy man.
And lastly we may not feel we've had enough.
Unless he tells us why she's called "The Tough." As Mr. Baldwin sat down the people in the courtroom appliauded. Even one of the jurors clarped his hands and Justice Jenks stuffed a handkerchief into his mouth to prevent laughing outright. When quiet had been restored Mr. Towns begin his address. He was non-plussed for a time. Gradually he rehearsed the case. Then he drew his poem:

Then he drew his poem:
Oh, woman's lovely ankle!
How sweet, how neatly turned!
You kindle all the fires
That Cipil ever burned
On his astesios altar.
You made king David falter.
Taught him some and pealler.
And at the dance where music floats
in soft and rhythmic strain.
Your flash, thresign lace and petticoats,
How many hearts has slain?
Take from us all the pictures
That man's hand e'er portrayed.
But leav, ye gods, ch, leave us

later they brought in a vermet of state the plaintiff.

Mr. Baldwin made a motion to set aside the verdick and Justice Jenks said:

"I have grave doubts as to whether the verdict should stand. It seems to me that perpury is now a pastime. This case has shocked me. It is full of contradictions. Several of the boys used the word alighting, which, it seems to me, was not in their vocabulary. This verdict should not stand. I'll consider the motion very carefully."

GOT THE TREMONT BURGLAR.

Police Think Heinz Has Robbed 40 Houses Including Commissioner McCartney's. Detective Louis Schindler of the Morrisiana olice arrested yesterday Otto Heinz, 38 years old, of 345 East Sixty-eighth street, on a charge of burgiary. The police declare that Heinz is the man who has committed over forty burglaries in Tremont and Morrisania in the past three months

Each of these burglaries was committed be-Each of these burglaries was committed between 2 and 4 o'clock in the morning, and in every case the thief cut out a pane of glass near the catch of a ground floor rear window and got in that way. The police were told by those who had seen the burglar as he ran away that he was a tall, powerfully built fellow, wearing rubber shoes. Among those robbed was Street Cleaning Commissioner James Moraries, whose house at 119 Fulton avenue was entered on Jan 9 and plundered of clothing and silverware.

JOHN SPLAN FINDS HIS MOTHER The Well-Known Horseman Had Not Seen Her for Nearly Fifty Years.

Chicago, Jan. 20.-John Splan, well known in horse affairs in Europe and America, was happy to-day because after a search of thirty years he has found his mother. Mr. Splan was born at Little Falls, N. Y., in 1840. He was the only child of John and Helen Splan. At the age of 10 his father died, and young Splan, imbued with a desire to see the world, ran away. He lost all track of his mother and has been searching for her for years. A few days ago

searching for her for years. A few days ago Police Captain Mahoney called him up on the telephone and said he had an old woman at his office who was searching for her son, John Splan.

"Detain her until I can run down," said Mr. Splan. Thirty minutes later he was in the presence of his mother. She told him her name was Helen Splan and of her desire to find her son. "I know him and will fetch him to you to-morrow," replied Mr. Splan, not disclosing his identity. Mrs. Splan returned to her home near Dunning, and next day Mr. Splan sent his wife to break the news to her. Mrs. Splan is 80 years old.
